Your Astrology Weekly Forecast: July 9 - July 15, 2017

The **Karmic Tools Weekly Forecast** covers the current planetary transits which affect people in different ways and to various degrees of intensity. Take notice when it is a Personal planet (Sun / Moon / Mercury / Venus / Mars) interacting with a Social (Jupiter/Saturn) or Collective planet (Uranus / Neptune/Pluto). And pay extremely close attention when it is a Social planet interacting with a Collective planet because that means something *big* is brewing that will move large groups of people along their evolutionary paths. Tuning in to the energy and rhythm of the planets can serve as a useful *guide* as you move along your Individual Path. It also helps to understand your place within the context of the larger Social & Collective Story. Below, you will find out how these energies tend to manifest, as well as guidance and direction. ***NOTE*** There are some days when there are NO CONTACTS (besides the Moon), please note that there are no missing entries, we just list the actual Activations of each week + the day they happen.

Weekly Forecast: July 9 - 15, 2017

7/9 ~ Sun (source & essential Self) ~oppose~ Pluto (purification & transformation):

This energy can/will create very intense encounters with others, possibly revealing things about you which you may not have been aware of, misunderstood or have chosen to ignore thus far. This energy provokes power struggles and/or challenges with authority figures where you may have to stand up for yourself. It can also may make you more aggressive, intense or

over-bearing than usual, creating or attracting these kinds of situations. If there are any problems within a relationship (personal or professional), this energy will force things out into the open. It will be much easier on you if you can open a dialogue with the express purpose of clearing the air and proceeding to a new level in your relationship, by choice. Any aspect of your life that you have been "just getting by" will now DEMAND attention; you won't be able to do anything less than a complete overhaul or replacement (this can be ANY area of your life but the Capricorn House in particular during years 2008-2024 due to Pluto's extended stay). Let's put it this way, any time Pluto is involved, there is usually complete destruction of the current (x-y-z) to make room for the new and improved. This will be by the Universe's definition, but you get a vote, you can consciously choose too. Ultimately, this is a good, growth & development type of energy/activation pushing you to the next level ... ready or not, here you come – so use the energies available to strengthen, fortify & prepare for your own personal transformation. Also consider your drives & direction about 6-months ago, and where you want to end up 6-months from now. This is an integration, that means a time when the depths of your Soul Self can commune & bond with your surface, personality, conscious Self. Like the conjunction (1.5.2016) about 6-months ago, this is about how you direct your personal power on your own behalf, and often, breakdowns precede breakthroughs.

7/14 ~ Mercury (your voice) ~sextile~ Jupiter (expansion):

Where the above (Sun sextile Jupiter) is more about YOU, this activation is more about your consciousness, ideas, thoughts & concepts (Mercury), which Jupiter expands in some way, helping you to 'think bigger', edit your personal Story and step up your game in some way. This is also a great energy to work with if you are in school, learning something new, expanding your knowledge base or gathering new tools & information to support your goals. Your dreams are tapping you on the shoulder, demanding some attention. Mundane issues are not your concern right now – you want to figure out how to create the life you've been imagining. This energy also provokes within you the awareness & understanding that being generous naturally attracts generosity to you. The big picture and overall patterns which have led you to this point are being brought into the light. Feeling clear, sharp, alert and optimistic, you begin to realize that anything you can imagine (or remember), you can achieve.
