Your Astrology Weekly Forecast: September 3-9, 2017

The **Karmic Tools Weekly Forecast** covers the current planetary transits which affect people in different ways and to various degrees of intensity. Take notice when it is a Personal planet (Sun / Moon / Mercury / Venus / Mars) interacting with a Social (Jupiter/Saturn) or Collective planet (Uranus / Neptune/Pluto). And pay extremely close attention when it is a Social planet interacting with a Collective planet because that means something *big* is brewing that will move large groups of people along their evolutionary paths. Tuning in to the energy and rhythm of the planets can serve as a useful *guide* as you move along your Individual Path. It also helps to understand your place within the context of the larger Social & Collective Story. Below, you will find out how these energies tend to manifest, as well as guidance and direction. ***NOTE*** There are some days when there are NO CONTACTS (besides the Moon), please note that there are no missing entries, we just list the actual Activations of each week + the day they happen.

Weekly Forecast: September 3-9, 2017

9/3 ~ Mercury (thoughts) ~conjunct~ Mars (energy): (1 of 2: 9/3 & 9/16)

I have to preface this with two things: (1) is when Mercury is involved, it is a relatively fast-moving energy. (2) is when Mars is involved, being the lower version of power (Pluto being the Higher version), reminds us that with power, also comes responsibility. Now, that all said, the positive expression of this energy is that you can control your mind and direct it with passion, getting tangible results. This heightens your intellectual ability and mental capacity (for better or worse). You will be able to clearly articulate your thoughts and you should have quick, effective responses. If you maintain your integrity, this is an excellent time to 'fuel' major creative expression. If this energy manifests its negative side, it can make you petty & combative, arguing over nonsense and wasting precious time & energy in ego control-dramas. And if it is not coming FROM you, it is just as possible to be coming AT you (from others). This is the best time to put your energy (Mars) behind your thoughts, ideas and words (Mercury) and get creative. The power of this pairing is that they are occupying the same space, essentially energizing each other and initiating a new 2-year cycle.

9/5 ~ Sun (ego & essential Self) ~oppose~ Neptune (illusion & delusion):

Where Venus opposing Neptune is about your relationships & finances, this Sun activation is more about YOU, the individual. And any opposition requires that we find the balance in the middle. This can be a very confusing energy. You will be very sensitive to others and their needs, as well as how they relate to you & your own needs. You may want to withdraw or not voice your opinion just to avoid conflict, feeling like it wouldn't solve anything anyway. Often, if/when you do not 'disagree' (openly) then people assume you agree, which creates more problems. You shouldn't give in to any temptation of being "slick" either, that will only attract more of the same to you. If you're feeling unsure of yourself or your position, you may think it is easier to give in to another person's demands when you really should stand up for yourself. Self-preservation is not selfish, it is necessary, so try to avoid playing the victim. Be honest and up-front with anyone demanding a confrontation at this time, that you would rather gather your thoughts and discuss things later (by then this energy will have passed) when you can articulate your side of things better. Be aware of deception - both on your part and/or the part of others (trying to deceive you). Your discernment is not its strongest under this influence so it is best to be still and quiet until the energy passes. Take this time to do some spiritual, inner work.

9/9 ~ Sun (core essential Self) ~trine~ Pluto (purification & transformation):

This energy makes you want to get things done, by any means necessary and you may tend to come on a little strong - but it's all good. The work you want to do is work that needs to be done – and in doing it and facing things head-on, you will gain insights about your Self that fortify your foundation so that your life can evolve to the next level organically. This intense and powerful energy is transformative in nature and will provoke you to think deeply about your life; what you need, desire and deserve. You may find that some aspects of your life need to be reformed or released - go for it - this energy makes reform and release easier than usual. It's a good time to make an impression or an impact on others, but be sure to keep it on the Highest level possible. Any actions or statements used to manipulate others for selfish gain can/will backfire on you in a big way. This is a positive, uplifting, transformative energy - use it as such to clear the debris and create the life you were born to live.
